Agenda 12/5/2013

- What's most important to focus on in the last week?

- Final presentation -- any advice?

- How to write CSS so that it looks good on multiple screen-widths?

- Is this actually bad style? From coding critique:
  - Some possible confusion between add_member in both cabals_controller.rb and cabal.rb -- both files have methods of the name "add_member", with the controller calling the one mentioned in cabal.rb
